

MOVING BLEACHERS

Whenever a big job had to be done, my classes drew the assignment.

A Tennis tournament was coming up and they needed bleachers to be moved from the football to the Tennis courts. It was about 100 YDS - but they had to go over a 4 foot fence.

We made a game out of it - every time we had to set them down. We had to do 25 pushups with our feet on the bottom row of the bleachers. Yes I did them with them. We sat them down twice I think.

Why did they call on me - they knew we could get it done.
