

So many stories and so  
little time

No one wants to hear them  
so I'm writing them down as I  
think of them - all really happened.

I was involved in 3 wars  
and taught school for 34+ years -  
so I have plenty of stories to tell.

### WARS

World War II - I went in 6 months  
before it started - June 3 1941. Got out  
about 9 months after it ended June 3 1946

Korea - Was called back in Oct 1950  
released April 1952

Viet Nam - Went on active every  
summer for 4 years -

And the biggest Educator of all —  
Prepared me for the world:

THE UNITED STATES MARINE  
CORPS.

And to my Dad — what he  
taught me can not be measured —

Honesty  
Loyalty  
a good work ethic

He only went to the 5<sup>TH</sup> grade but  
he had a PHD in common sense!!

The Marine Corps sent me to  
Aviation Machinist School in  
Chicago, Ill before the war — never  
plied that trade. I used one thing  
I learned there on Guadalcanal  
in 1943 — That is a story in its self.
