

LAYING SOD FOR THE BAND

The band bought sod to cover one of the fields. They were to get the whole day off from classes to lay the sod.

Of course they goofed around all day and didn't get half of it laid. The Principal asked me if I would take my classes and finish the job.

We did —

A few days later - I got a note from the principal telling me to keep the Phy. ed classes off the field. I took the note in his office - threw it on his desk - and said "You have lot of guts to send me this." He said - I know it.

It wasn't my classes - but I was Head of the P.E. Dept.
